A ladybird

A horse chestnut leaf/flower

A bumblebee

A blue tit

A grasshopper

## Friends of Eastcote House Gardens

[www.eastcotehousegardens.weebly.com](http://www.eastcotehousegardens.weebly.com)

- Did you know that Oak Trees can live for hundreds of years? There are some very old trees in the Gardens and Long Meadow, more information on our web site.
- The yellow flower pictured over leaf is called Celandine, which grows all along the River Pinn. There is a walk called the Celandine Route which links Long Meadow with Manor farm and beyond. The full route and maps can be downloaded from this link <http://www.hillingdon.gov.uk/search?keyword=Celandine+Route&go=Search>
- Did you know that horse chestnut trees first came to England during the reign of Queen Elizabeth I. In Spain castanets were made from the wood of horse chestnut trees.

**Please take this leaflet home and help us keep the Gardens and Meadow free of litter.**

**We hope you enjoyed your visit.**

This leaflet is printed on recycled paper with vegetable ink by Hillingdon Greenprint.
